EXPERIENCE

Sofware Engineer

Microwings Pvt Ltd

📅 Nov 2022 - Present   📍 Mumbai, India

- Project : National Skills Registry (NSR, NSR 2.0)
  - Centralized database storing diverse skill-related information for accessibility.
  - I develop, optimize, and maintain NSR's backend for seamless operation.
  - Led full-stack development of NSR, merging front-end and back-end tasks.
  - As a backend developer fluent in Java and object-oriented concepts, I utilize GitHub for version control, while excelling in crafting RESTful APIs and collaborating for scalable solutions.
  - Implemented Java backend with Spring Boot, crafting efficient RESTful APIs, and resolving production issues for optimization.
  - Leveraging relational databases like Oracle and PostgreSQL optimizes data storage and efficient management for diverse needs
  - Led frontend development with Angular, HTML, CSS, Taiwind Css, and Material-UI, ensuring a responsive, user-friendly interface.
  - Implemented responsive design ensuring optimal display across various screen sizes for enhanced user experience.
  - Skilled in writing high-quality, efficient code, focusing on impactful contributions to projects.
  - Prioritize code readability and maintainability for long-term project sustainability and team.

Software Engineer

MY Lancer Pvt Ltd

📅 May 2022 - Oct 2022   📍 Latur,Navi-Mumbai, India

- Led frontend development for an internal project focused on online water supply management system.
- Implemented frontend using HTML, CSS, Bootstrap, Angular, and PHP technologies for optimal functionality and user experience
- Integrated PHPMyAdmin database for efficient data management and retrieval.
- Ensured cross-browser compatibility for diverse user experiences.
- Implemented responsive design to adapt to various screen sizes.

EDUCATION

Bsc.IT in Computer Science

Magadh University

📅 Jul 2014 – Oct 2017

Academic project : - Library Management System.

ADDITIONAL EDUCATION

FullStack Web-Development

NareshIT,Hyderabad

📅 Jun 2021 – Nav 2021

I completed training on MEAN technology.

Ability to develop comprehensive web applications using MEAN stack.
